Nick was honestly a great teacher. He was incredibly patient and had a way of explaining things so that they always made sense. He was a big reason why I got through this class!

He went through and explained every single question we had. He also would go over extra problems if we needed more assistance

Nick was super helpful and understanding. His email replies to me were quick and incredibly detailed. He was encouraging and prepped me before the midterms and the final. Thanks Nick!

Not really

Maybe add another session instead of just once a week.

He was great!
